

Francesco Casu

Personal Information

Date of birth: 13/02/1978.

Place of birth: Cagliari (Italy).

Education

- 02/26/2009** **PhD in Electronic and IT Engineering**, University of Cagliari (Italy). Advisors Giuseppe Mazzarella and Riccardo Lanari. Dissertation: "The Small BAseline Subset technique: performance assessment and new developments for surface deformation analysis of very extended areas";
- 04/10/2003** **MS in Electronic Engineering** (summa cum laude), University of Cagliari (Italy).

Research Experience

- 09/2007 – present** Research Staff, IREA-CNR, Napoli, Italy;
- 07-08/2009** Exchange Visitor, Stanford University (Prof. P. Segall), Palo Alto, California;
- 10/2005** Exchange Visitor, JPL (Dr. P. Lundgren), Pasadena, California;
- 06/2005 - 09/2007** Research Fellowship, IREA-CNR, Napoli, Italy. "Algorithm development and validation to generate deformation time series from interferometric SAR data";
- 11/2004** Exchange Visitor, UT Austin (Prof. S. Buckley), Austin, Texas;
- 05/2004 – 04/2005** Research Fellowship, CRdC-AMRA, Napoli, Italy. "Advanced differential SAR interferometry techniques to monitor Earth's surface deformation";
- 12/2003 – 04/2004** Scholarship, IREA-CNR, Napoli, Italy. "Algorithm development to process multi-pass SAR data to generate high precision DEM";
- 12/2002 - 05/2003** Internship IREA-CNR and University of Cagliari, Italy. "Differential SAR interferometry techniques to monitor Earth's surface deformation".

Teaching Experience

- 09/2012** 12 hours short course on multi-temporal differential SAR interferometry processing, EURAC, Bozen, Italy;
- 05/2011** Lectures in the Remote Sensing and Electromagnetic Diagnostic course, University of Cagliari, Italy;
- 2010** 20 hours short course (IFTS/CIPE) on Active Remote Sensing, Istituto Salesiano "Sacro Cuore" di Napoli Vomero, Napoli, Italy;

2009	20 hours short course (IFTS/CIPE) on InSAR and Advanced-InSAR techniques, Istituto Salesiano "Sacro Cuore" di Napoli Vomero, Napoli, Italy;
12/2008	Lectures in the Remote Sensing and Electromagnetic Diagnostic course, University of Cagliari, Italy;
12/2006	Lectures in the Remote Sensing and Electromagnetic Diagnostic course, University of Cagliari, Italy;
03/12/2004	Tutorial on "Introduction to Synthetic Aperture Radar (SAR systems and SAR Interferometry", IRPI-CNR, Perugia, Italy;
02/13/2004	Tutorial on "Training professional on methods and techniques to Earth's observation - COS (OT)", Potenza, Italy.

Recent Activities

Main research interests are in the DInSAR field and in particular in the multi-pass interferometry for what concerns algorithm development and DInSAR time series measurement assessment. I am also involved in the development and application of DInSAR techniques to data acquired by novel generation satellites such as COSMO-SkyMed, TerraSAR-X.

I participated to the research activities of several national and international project (PSIC4, ASI-SIGRIS, ASI-SRV) and I was also the scientific responsible for the IREA-CNR activities carried out in the project "Development and integration of novel EO's techniques to monitor deformation phenomena in the Val d'Agri area" (funded by ENI).

I currently am the IREA-CNR scientific responsible for the activities to be carried out in the FP7 "Helix Nebula - The Science Cloud" and I am also involved in porting the IREA-CNR SBAS software into the cloud platform provided by the ESA CIOP project.
